Julia Hester – Flagstaff, Arizona

I’m due this Saturday with baby #5 – my surprise at 40 years old. This has been my first pregnancy with homeopathy, and it has been great! In fact, maybe I was so sad about not having known about homeopathy during my other pregnancies that maybe I decided to get pregnant subconsciously. I’m looking forward to having remedies on hand for birth, too!

Joette’s birth stories have been very encouraging.
