

Beginning a New Year

It is a brand, spanking new YEAR!

It's 2021.

It's time to address the situations you have been led to believe were hopeless...

with homeopathy!

There is nothing more inspiring to human beings than a clean slate. Traditionally, that's what a new year brings – a fresh start.

But rather than wasting our time with niggling resolutions

that won't last beyond week's end, I want you to reaffirm your ability to heal your family.

Stand tall. Stand confident. Stand poised to take on 2021 with aplomb!

It's time to make anything possible – make anything *probable*!

Let me share an email I received from a student just a couple of weeks ago to inspire you. I assure you this email is real and unsolicited (although I've protected my student's identity, of course.)

Dear Joette,

I wanted to write to you to express my gratitude for the work that you and your team are doing and to share how homeopathy has transformed my family since I found your website.

About eight months ago, I started my husband on a Nux vomica protocol that I had learned about [through your blog](#). Before the Nux vomica, my husband was angry, like “call the police” kind of angry. There were times, honestly, I wondered if our marriage would last with his anger. There were many times I worried about the psychological effects that his anger would have on our two young daughters.

But, thankfully, after a very scary event earlier this year, my husband agreed to let me give him homeopathy.

I can't even begin to tell you how much this has helped him.

It didn't happen overnight, it took a number of months, but I am still in awe of the transformation I've seen in him. Does he still experience anger? Yes, but it's normal anger, not the out-of-control stuff I witnessed before. There finally is peace in our home, and I am no longer worried about my daughters having to grow up with an angry father. Even his brother pointed out how calm he was while driving, despite the fact that people were cutting him off.

A handful of [Nux vomica](#) bottles has saved us thousands of dollars in counseling fees, saved our daughters from having to grow up with an angry dad, and possibly saved our marriage too. This has really changed the trajectory of our family.

Oh, and by the way, his gassiness happened to get better. And his diarrhea went away. And amazingly, his body acne started to clear up, too. I can't tell you how happy and grateful I am to have found you. And I am excited to know that this is just the beginning.

What this student has recounted is nothing new to me; I witness this daily in my practice. However, it never fails to inspire me to see it recalled by a devoted mother and wife, and how it impacts a family.

This can be your story, too – with whatever your family's most pertinent health issue is.

All it takes is a rededication to learning, and you can make 2021 the year of health, happiness – and, of course, homeopathy!

As I have said before, **YOU ARE THE HERO!** I am your guide.

Warmly,

P.S. My blogs and podcasts are helpful resources to discover homeopathic medicines addressing various conditions – for free – as this student learned. However, if you want to take a deep dive into a particular subject, I suggest investing in a specific course.

For instance, as in this case, your family requires homeopathy for emotions run amok, consider [Mindful Homeopathy: Practical Protocols for Mental and Emotional Conditions.](#)

And remember – all of my Mighties [\(Joette's Mighty Members\)](#) qualify for a 10% discount on course purchases. If you need assistance getting your discount, email contact@practicalhomeopathy.com for more information.
