# blog 3 – Prepare to Perform in the Storm

## Homeopathy First Aid

As a mother of three boys, I learned from necessity how to handle injuries. After grasping the importance of knowing the fever remedies, I found myself memorizing injury remedies because of the very nature of my family.

*Bangs, burns, bruises, bumps, concussions, cuts, contusions, cracks, fractures, splits, stabs, stings, swats, smacks, slams, slaps, punctures, punches, pricks. That was my usual day.*

My boys were magnets for catastrophes. One day, I actually kept a diary of what a typical day encompassed. It's as though they scheduled their injuries for the day from the moment they rose from bed. Here it is:

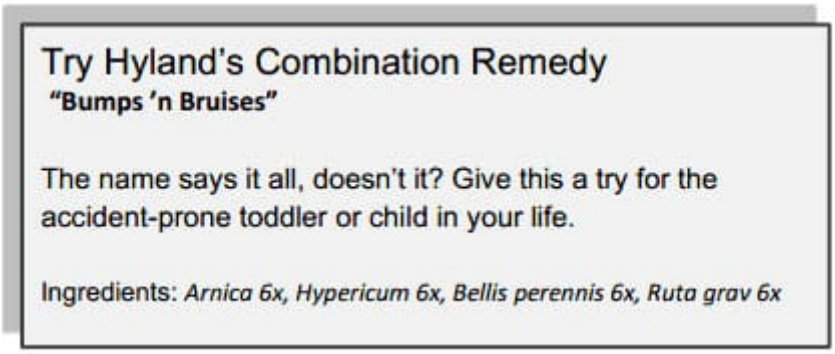

7:00 a.m. – Giuseppe falls out of bunk bed and whacks head on floor.
7:32 a.m. – Giuseppe burns hand on hot toaster.
7:34 a.m. – Peter splatters hot bacon grease on face.
9:25 a.m. – Perry gets attacked by the rooster with the long, sharp talons.

10:30 a.m. – Perry drives a shovel into foot while digging in the garden.
11:05 a.m. – Giuseppe gets a tick embedded in right ear.
12:00 p.m. – Lunch.
1:30 p.m. – Bee flying at warp speed implants itself in Peter's right cheek.
2:15 p.m. – Perry gets an electric shock on goat pen.
3:45 p.m. – Peter inhales a mosquito up right nostril.
5:00 p.m. – An argument over Legos results in fist fight. Perry gets his nose punched off his face. (Or so it seemed that way.)
6:00 p.m. – Dad comes home.
6:30 p.m. – Dinner.
7:30 p.m. – Perry inhales bath water in the tub.
8:30 p.m. – Bed.
8:35 pm- Whew!

## This Is What Homeopathy Did For Me

I learned that it relieved the physical and emotional shock of accidents and injuries in short order. Whether for a mild injury or one that might have required medical treatment, homeopathy gave me the confidence that it would absorb the shock, could minimize and often eliminate bleeding; reduce fear, anxiety, and pain; and put my boy in a better state. Many a mom has reported to me that they set off to the emergency room and on the way administered the proper remedy. What a comfort to know what to do, even in calamitous circumstances.

## A Combination Remedy to Consider

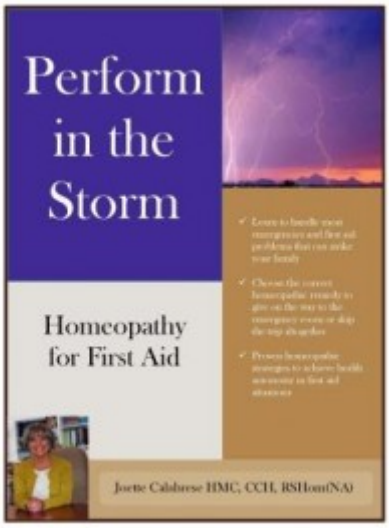

*The best preparation for an emergency is to own a homeopathy kit with as many remedies as you can afford. It is not unusual to see kits with 30 – 100 remedies in them. If you have small children, it is a good idea to tuck a few key remedies in your purse.*

*Remedies can be purchased individually at a cost range of $8.00-$22.00. By purchasing a kit, the cost is usually reduced to less than $2.00 per remedy. Because these medicines will last for decades, there's no need to replace unused remedies with new stock.*

*I carry remedy kits in my office. Should you be interested, you may contact me*

*at contact@joettecalabrese.com.*

*But, having said this, I urge folks to start small; try one little remedy at a time. Once you get hooked on homeopathy, as I'm sure you will, then ponder the idea of making a greater commitment with the purchase of a household kit. By the way, I'm not the only one who sells kits. They can be found on line and in certain health food stores.*

Meanwhile, allow me to offer another FREE transcript. This one is to my CD Perform in the Storm – Homeopathy First Aid, so you can get more remedies for first aid under your belt.

If you pride yourself in being frugal, tenacious and autonomous, if you love being in control of taking care of your family's well being, if you get a thrill out of learning a skill that will serve you and your family for generations, then this medicine called homeopathy is likely the method of care for you.

Join me in the adventure of being able to cure your family yourself. My boys are grown now, but homeopathy still serves me well. Learning and applying it, is one of the most intellectually and emotionally satisfying endeavors I know.

## The World's Fastest Growing Medicine

Homeopathy is the world's fastest growing medicine. According to the Associated Chambers of Commerce and Industry of India, the Indian market is likely to grow 30% per year. Globally, with France being the largest contributor, this same organization estimates the growth at 25% annually.

So you have to ask yourself, why is that? In my professional and motherly opinion, there is only one reason…it works!

It has been a hoot reading all your great comments. What I have come away with is the realization that a preponderance of self-educated folks visit this Blog.

My favorite kind of people!

Thanks for reading.
