

Diarrhea

Diarrhea – it can be painful, debilitating, embarrassing and even dangerous. However it presents, we don't want it. Not to worry...homeopathy has a reputation for addressing even the most stubborn cases of diarrhea. In homeopathy, we consider the symptoms key to the illness and an expression of what is going on in the body. So, instead of suppressing the illness, we find a substance in nature that includes the same symptoms the diarrhea presents. Is the diarrhea exhausting? Cramping? Is the person thirsty or hungry? How about the mental state? Is he anxious, irritable or just plain angry? Was there an incident that caused an emotional stress that preceded the diarrhea? All of these idiosyncrasies are the expression of illness that present in tandem with the diarrhea. Hence, they all need to be considered. This is what makes homeopathy so unique and also effective. It views the person, not the disease.
