It’s a New Year – Let’s GET BUSY!

I’ve heard you. For months you’ve been saying, “Next year, Joette. After the holidays. In 2019, I’ll buckle down and immerse myself in homeopathy.”

Well, guess what?

Today is the day. It’s January 1st.

No more delays. No more excuses.

And I’m right here – eager to help guide you on your path to healthcare autonomy.

I have worked at this incessantly for 35 years. Your support and loyalty have fueled me to continue teaching and developing new courses – and this year will be no different.

I have some exciting projects in the works!

What's so enticing about opening a brand new calendar? It provides a clean slate; a perfect moment to begin anew with refreshed zeal – for all of us.

Your enthusiasm has kept me not only bolstered but also passionate about my mission to bring homeopathy to 200,000 families by the year 2020. (You may notice my goal number has changed. Even though we've already surpassed my original goal of 100,000 families, I want to shoot for the stars!)

But do the math – we only have ONE year remaining!! Thank you for what you've done, but let's keep going.

As soon as the big New Year's dinner is over, the dishes are done and your football team's fate is no longer in question, immerse yourself in homeopathy as you've promised yourself you would.

I have loads of free blog posts and podcasts to get you started.

Ask your family, neighbors and friends to join you because, as always, we must pass on the good news of homeopathy and it's easier and more expedient to learn with others.

Happy New Year!

P.S. I just learned that there are several Study Groups both Gateway I and II starting in the new year. Now is the time; this is the moment. Take advantage of joining a class with a seasoned leader. Click here (we will approve

your request to join quickly) or call my office and talk with Eileen (561-537-5900). She is up on the lastest.
