Let’s Let Homeopathy “Trump” Them All

This week, I have a request for you. The election is over. Our new president-elect has asked the nation to let it be known to him what we see needs changing to make America great.

So here is my request to you. Let him know that medical freedom, the freedom to choose homeopathy and vaccine freedom, is of the utmost importance to you, as a mother, grandmother, business person, farmer.

Tell him that we want our homeopathy manufacturing pharmacies, practitioners and such to not be singled out under our laws.

I know that the holidays are a busy time, so I am making it super easy for you to reach out.

Copy, paste, and if you like, modify the form letter below and submit it online to Trump. Tell him that medical freedom is important to you and your family!

Here is the link to the site to go to, and make your voices heard. https://apply.ptt.gov/yourstory

Sample letter:

Dear Mr. Trump:

Thank you for taking the time to hear what will make America great. Something that is of the utmost importance to me is medical and vaccine freedom as well as an open competitive market that gives equal access to alternative medicine, especially homeopathy.

Options like homeopathy are something that should be celebrated, not suppressed. Homeopathy has been repeatedly shown to be effective, and it's been put on a platform equal to that of conventional medicine in many countries. It is even the choice medicine for several world leaders, but because of the monopoly of the pharmaceutical industry, it has unjustly been put in the cross hairs of the FDA and other governing bodies in the United States.

I would like to see it allowed to flourish without government and big pharma bias against it.

Thank you for your time.

Sincerely, {Your Name}

Of course, I can't request something from you without giving something in return. So I asked some of my staff what remedy

they felt “trumps them all” for this Thanksgiving. It may come as no surprise to you that they each had a different answer.

Think of these to help you survive Thanksgiving and beyond.

Renee says it is *Arsenicum album* 6 or 30 *(Use the discount code **Joette** at checkout and get a quick 20% off your order)*. She likes to keep it close by in case of a sneeze attack at this time of year. It has helped her family by giving it every 30 minutes or so to abort a sneezing fit. “It’s nearly immediate!”

It might just help someone in your family who can’t be near visiting family pets this Thanksgiving.

Courtney finds *Chamomilla* 200, twice daily to be a necessity for her little teething titan. She has been known to explain how things are going on a particular day by calling it a “Chamomilla Day.” Surely visiting Grandparents prefer smiles over tears.

Paola likes *Cantharis* 30. It seems that she is prone to burning herself while cooking! And using a hot glue gun. It makes a burn that happened one hour ago feel like it’s three days old. Clearly, a necessity when busily preparing a Thanksgiving meal.

Here is a remedy that seems to me would be valuable in the current political atmosphere. With the temper tantrums displayed by the losing party being played out on the streets in the U.S., might I suggest *Stramonium* 200?

It is excellent for curbing juvenile behavior that results in property destruction. I’d like to toss it into their gaping mouths as they scream obscenities.

(I couldn’t resist.)
