Abigail Foster – Madison, Wisconsin

I must thank you both from the bottom of my heart – THANK YOU for this course. I've always known there was a missing piece of information regarding my family's health and this class has connected the dots for me. I have found a kindred spirit of sorts with Joette as I have always been independent, done my own thing – often misunderstood – a salmon swimming upstream in mainstream society! And I am THRILLED and THANKFUL to have found a like minded community of free thinking people with common sense! Anyway, I cannot let the Allergy course end without a heartfelt, BIG THANK YOU. I'll be taking future courses I'm sure. I feel I've hit the mother load. xoxo Abigail
