Amelia Vaughn – Fargo, North Dakota

Happy New Year, Joette, and thank you for all you do for us! Nice to be entering a New Year for the first time with all I have learned about homeopathy (GGBG and Gateway) as well as your website handy! Also, I imagine you have probably reached many more households than you can count! I’m thinking of how all your students become inspired to share and help others. I personally can think of 7 households that are using homeopathy since this summer thanks to things I learned from you! You, dear Joette, will probably never be fully be able to quantify the impact you have in the world :).
