# Grace Sullivan – St. Louis, Missouri

I have a true victory from the Allergic course!

My extreme chemical sensitivity has plagued me for 20 + years.

If I was around a strong odor I would get Allergic/chemical bronchitis and sometimes it would turn into pneumonia. I started Calc carb  1M last may and have not had one bout in a year!

My husband hammered out the sewer pipes in our basement 3 months ago.  With the dust, fumes etc… all of our smoke detectors went off.. I was scared.. Nothing!!!
