Lauren Pike – Providence, Rhode Island

I would like to extend my deeply heart felt appreciation to all who participate in the production of all things having to do with this years Academy.

I have found this experience of learning to be profoundly and deeply beneficial!

The academy curriculum is broad and informative; offering many perspectives (which I really appreciate hearing). Personally my understanding and relationship with the medicines and the principles of how to use them has grown exponentially!

Never knew I could enjoy history so much. All the many aspects being offered here really build a wonderful and solid foundation for the practice of homeopathy.

Your academy curriculum has helped me so much to understand again at a profound level the basis for the work I love and these two ways of application dovetail beautifully.

My studies with you will help me to always have a way to inform and bring this natural means of healing to others.
