Mia Reynolds – Chicago, Illinois

Joette has drastically changed the health of my family! Her courses (GGBG & Detox) are fantastic, and have made homeopathy accessible and useable to families without requiring them to have years of study before being able to successfully use the protocols.

And on top of that, the amount of free information she provides to the public is amazing.

I have learned so much from her and have successfully treated many illnesses and injuries without having to resort to powerful drugs with long lists of side effects.
