Olivia Stein – Montgomery, Alabama

Thank you for helping so many people with your practical homeopathy remedies.

As a UCC physician with VAMC ALX I frequently encounter older veterans like myself with a common pruritic rash of the scalp and skin due to clogged sweat glands.

Instead of using the local skin cancer medicine usually recommended and/or the repeated freezing therapy I used to endure, I have found that calcarea carbonica 200ck every 3rd day works to stop it when it gets bad.
