Online Perimenopause Summit

Your talk was absolutely amazing! I signed up for the summit and got the preview. I think the most important takeaway was your explanation of homeopathy. The discussion of generational use of birth control also hit home, as I thought there was something ‘wrong’ with me when I went thru menopause in my late 40’s. I am sharing the summit with my almost 30 yr old daughter JUST to have her watch your video (she’s actually my stepdaughter, but she is aligned in wanting to do things more naturally than the rest of my kids/stepkids).

Thanks for sharing the summit, and thanks for sharing your knowledge!
