

Scientific Research

Showing the Efficacy of Homeopathy

If you've ever asked yourself where the science is behind homeopathy, you're at the right site! If you've been told that homeopathy is magical or even anti-Christian, don't exit your browser just yet.

Instead, check out this [great new article](#) from www.naturalnews.com, explaining how, due to water's unique characteristics, homeopathic medicines are in fact, possible and not placebo!

Additionally, the esteemed British medical journal, *Lancet*, has also published two articles reporting the remarkable findings of Dr. David Taylor Reilly. Click [here](#) and [here](#) to read them.

Another great resource is this [amazing story](#) documenting how homeopathy saved millions during Cuba's annual leptospirosis epidemic.

There's more where those studies came from and I've listed many below.

I pass on the torch of self-empowerment. Keep it lit and pass it on. Authentic truths are genuine and meant to be shared for the sake of sharing good.

ADHD:

- Frei, Everts, von Ammon, *et al.* "Homeopathic treatment of children with attention deficit hyperactivity disorder: a randomized, double blind, placebo controlled crossover trial." *European Journal of Pediatrics*. Vol. 164, No. 12 (2005) Pages 758-767.
