

Letters to Share

I always enjoy hearing from my readers and so I was especially grateful for the following message I recently received.

I thought it would be nice to share with you since it embodies so much of what we experience on our journey toward health and wellness.

So, thank you Michael for your great message and I hope you'll be able to join me in my new webinar system coming up this spring.

It's called, "How to Raise a Drug Free Family". It will take you to the next level of understanding in homeopathy.

Stay in touch. I love to hear how students of [homeopathy](#), like Michael, fare:

"Hi There, I guess you can call me a homeopathic enthusiast.

I'm also a huge fan of the Weston A. Price foundation because they seem to have the pieces put together correctly on what we are supposed to be eating... the same things our ancestors ate and how we evolved... not these pyramids... I took several two day classes on homeopathy for animals a few years ago... I don't own

any animals so I used most of that knowledge on myself and my friends... had some good positive results... and some that left me scratching my head... all in all, it's been a great learning experience and I will never look at disease the same way ever again.

I would like to try and continue learning more on these fronts and I am glad to have found this website.

Thank you, Mike Gurecki, Bradford, PA"
