Harper Levine – Burlington, Vermont

Dear Joette,

I wanted to reach out quickly and express my deep gratitude for you. I am working through my daughter's first real intense ear infection (at age 7.5 mind you!) and I feel equipped, encouraged, confident, and ready.

Thank you my dear and beloved mentor and friend. Tonight, while studying for APH, I listened to Robin Murphy's timeline talk and the tears started flowing. It all makes sense.

The years and years of confusion as to why I experienced certain troubles became ever so clear.

I know the LORD has you on this path, Joette. You have very evidently helped to equip mothers like me to DO THIS. Thank you my very dear mentor.

You are deeply loved!

Harper
