

Testimony Guidelines and Submission Form

Everyone can relate to a good testimony.

Adding your story will inspire new students of homeopathy to want also to become exceptional parents.

Here are some guidelines to help you create a powerful testimony.

- Testimonials should be 'short and sweet'... about 100 words.
- Results-based testimonials are best. Consider focusing on an aspect of how homeopathy has improved your life:
 - No more drugs! Homeopathy instead.
 - Feeling of confidence in being able to take on family's illnesses
 - Headaches (or other maladies) gone!
 - Money saved on co-pays
 - Time gained from avoiding doctor visits
- Start with phrases such as "I'm surprised...", "I didn't realize...", "I never thought...", or "Oh my goodness, what a change!"
- Say something about how you learned homeopathy through a course, seminar, blog, etc. of Joette's
- Avoid saying that Joette prescribed or healed, etc. Instead, say something like: "Joette taught me how to use" or "I learned from Joette how to..."

Create a video testimony

If you would like to create a video testimony, you may upload it in the submission form below.

Add photographs to a testimony

Those who wish to enhance their testimony with photographs, consider a before as well as an after photo. This form includes the ability to add photographs.

How to submit a testimony

Type or upload a word document/PDF version of your testimony into the box just below.

Please read the testimonial/model release form by [clicking here](#). Submitting the form below will acknowledge your acceptance of the terms of the release. All testimonies will remain anonymous.

If you have any questions please email Contact@joettecalabrese.com

Thank you,

Joette's Team
