

Here's an Opportunity You Won't Want to Miss

In just a few short days, I will be leaving for the Weston A. Price Foundation's 14th Annual Conference, [Wise Traditions 2013](#), held November 8-11 in Atlanta, Georgia. I can't wait!

This year's theme is "Curing the Incurable: Holistic Therapies for Chronic Disease," and the conference has gathered some of the best minds in the country to speak on diverse topics such as raw milk safety, Chinese medicine, magnetism, cheesemaking, raising your own livestock and poultry and just about anything you want to know about nutrition and traditional diets.

And the conference fee includes five delicious gourmet meals that incorporate the principles of these healthy diets! Where else could you find that?

The conference kicks off on Thursday evening, November 6, 2013, with a **fundraiser dinner/dance/debate** between Dr. Joseph Mercola and *New York Times* Bestselling author Joel Salatin, debating whether labeling GMOs is a good thing or not. The program continues on November 8-10 with three days of great speakers and exhibits.

A **Children's Program** is also provided where your little ones can learn the basics of healthy eating while you attend the regular sessions.

The best part of all, for me, is that on Monday, November 11, 2013, I will be teaching a six-hour course (9 am to 5 pm) on *How to Raise a Drug-Free Family ...* my favorite subject! I have often been invited to speak at these conferences, but this year's program gives me the

chance to talk in greater depth about how homeopathy can help you take and keep control of your family's health, without prescription or over-the-counter drugs.

We will also have a table in the exhibit hall throughout the conference, and I am really looking forward to meeting many of you face-to-face. Plus, as many people attend these conferences faithfully every year, I am also looking forward to reconnecting with many friends and acquaintances from all over the country.

We will have free samples available at the table and a raffle to win a homeopathy kit.

This is the first time the conference will be held in the Southeast, so I hope those of you in the South and along the East Coast especially will take this opportunity to learn and have fun with like-minded people who are dedicated to raising their wholesome, well-nourished, drug-free families.

Here's a list of the Featured Speakers:

- Ton Baars, PhD, raw milk expert from Germany
- Ted Beals, MD, raw milk safety expert
- Robert Scott Bell, broadcaster, creator of The Robert Scott Bell Show
- Dean Bonlie, DDS, magnetism expert
