Beyond the Drill and Quick Fixes: The Homeopathic Smile Revolution

Sponsored by Boiron, world leader in homeopathic medicines, this free webinar features Joette Calabrese, PHom M, an international homeopathic consultant, author, educator, and founder of The Academy of Practical Homeopathy® and Mastery™.

Join Joette for a practical look at how homeopathy, nutrient-dense traditional foods, and quality dental care can work together to support oral health. Drawing on the work of Dr. Weston A. Price, this webinar will explore the connection between nutrition, jaw development, teeth, gums, and overall well-being. Participants will learn homeopathic approaches for common dental concerns, along with remedy insights, practical protocols, and key takeaways to help families build confidence in supporting dental health at home while working alongside skilled dental professionals.

This webinar offers an opportunity to rediscover homeopathy's role in supporting long-term wellness, with insights grounded in decades of Joette's clinical experience.
