

Rebecca, Westchester County, NY

Thank you Joette for the personalized information you gave me regarding my tooth. Since taking the remedies (only 3 cell salts together), my tooth problem went from being a painful, worrisome problem with the threat of a root canal, to an occasional whimper of a problem. When it hurts, it a fraction of the pain and it only happens occasionally instead of many times daily.

But there's even more that I have to report. My sleep is back to normal, my hands are improved (no more zingy feeling); the hot flashes are gone, too. I used to have to take all-out naps every day, but now my energy is so improved, that I only take a 5 minute snooze and I'm up and at 'em again. Thank you Joette for your guidance...Oh! and the mark on my forehead has gotten smaller!
