

Homeopathy is safe

It is harmless because the remedies are extremely diluted so that any toxic effects are antidoted or removed. Hence, they can be confidently administered to babies, the elderly and infirm. Even those who are very sensitive to other substances will have no ill effects when given a remedy at the correct potency. [Homeopathic remedies](#) have also been given to wildlife, livestock and pets and are considered the medicine of choice by millions. Judge for yourself. Consider learning more about this most efficacious method of nontoxic medicine.
