

Homeopathy Is...

A drugless wholistic therapy that has healed millions. It views the patient in a manner that is quite different from the view of conventional medicine. Instead of treating the illness with drugs of a questionable nature, it treats the person as a whole and goes after the underpinnings of the illness, allowing the person to adjust naturally.

What does the Jesuit order, Mother Teresa, Pope Paul VI, Pope Paul X and Pope Gregory XVI have in common? Well, besides being examples of Catholics of great faith and notoriety, they were all champions of homeopathy. Mother Teresa and her order dispensed, prescribed it and sang homeopathy's praises. Pope Gregory hired a homeopath, Dr. Johann Wilhelm Wahle, to work in the Vatican and sought to establish a homeopathic hospital. St Joseph's Leper Hospital was a homeopathic hospital run by Father Augustus Muller, a Jesuit missionary in India. There are many other examples of devout and traditional Catholics who have hailed homeopathy as a valued medicine.

Homeopathy is...

Homeopathy is not new age. It is a scientifically based medical method used by doctors and hospitals throughout the world. In the U.S., it is regulated by the FDA and has had many prominent followers such as John D. Rockefeller, the Royal Family of England and many U.S. presidents. It is the medicine of the discerning and educated but is available to all because of its low cost.

PMS is a thing of the past. The bloating, irritability and cramping can all be met squarely with homeopathy. If it's a mild case, often the sufferer can self treat. That's good. We like to take more control of our health. However, sometimes it's just too complicated to take on alone. That's when a certified homeopath can be of great value. Meanwhile, consider trying one of these remedies for a few weeks. Then, if there's no change, ask for help.

One of the first remedies we often think of when PMS is a problem is *Pulsatilla*. It's a homeopathic for women who find that their emotions are all over the place and their periods are unpredictable as well. *Pulsatilla* will aid in that dull, achy pain that often accompanies PMS. *Zincum met* is another valuable remedy for PMS when there's depression. A call for *Natrum mur* is clear when the skin breaks out just before the menses. This is especially valuable if you're prone to eczema or psoriasis that present at this time. It has been reputed that *Nat mur* 6x 3 times each day for a week before the period and through the entire flow can often minimize the severity.

The hallmark of homeopathy is its ability to resolve, not cover up symptoms. What an intelligent and refreshing way to approach health!

Homeopathy Is...

If you could find a medicine that could not just eliminate your symptoms, but get to the bottom of the illness so that it did not need to return, would you be interested? What if it had no side effects and didn't interfere with any other meds you're on? Or if it wasn't addicting? What if it had a reputation of two centuries of ability that millions the world over have utilized? Would you consider this as a possible method to treat your family? Well, think and consider homeopathy. It can deliver all of the above and more. Homeopathy doesn't disappoint.

Homeopathy Is...

A medicine that is much misunderstood. It does not mean home remedies, nor is it new age. Instead, it is a centuries old scientifically based medical paradigm that is used throughout the world by millions. It is based on the idea that the body has the ability to heal itself if given the correct stimulus. It was the medicine of choice of Mother Teresa and her order.

Homeopathy Is...

A specific form of medicine that treats the person as a whole using safe substances. It's not only effective, but gets to the bottom of the illness and unearths the body's propensity to reproduce it in the future. Hence, it gets to the bottom and addresses the underlying imbalance that caused the illness in the first place. It does this by stimulating the body's natural ability to cure itself.

Homeopathy Is...

Capable of addressing acute urinary tract infections. This can be accomplished with self care, but professional help should be sought if this is a repeated occurrence. Whether you work with a professional homeopath or on your own, there are some simple measures that can potentially keep an infection from blossoming.

1. Upon the first sign of a UTI, begin drinking cranberry slush. Canned or jarred cranberries are pasteurized so that the live enzymes are cooked away. They'll still help, but there's more power in making a drink with frozen cranberries, raw (unheated) honey to taste and a whole orange including the skin. When all three are

thrown into the food processor, they make a slush that is drinkable when water is added. Drinking this liberally can, for many people, halt an upcoming infection.

2. Begin taking *Nat phos* 6x every few hours or so for a few days. This, too, has the ability to abort an infection in the urinary tract, if it is still a mild one.

Now it's time to use homeopathy in an individual way. This is where homeopathy really shines since it treats the person, not the illness. Look at each of these remedies for the sake of interest; however, it would be wise to contact a professional for times when the symptoms below begin to present:

Terebinthina is the remedy of choice when the urine is dark, concentrated looking and there is burning with frequent urging, but not much volume. This is a more common occurrence after suffering a recent acute illness. When there is mucus like discharge coupled with gravelly urine and much irritation, *Bucha* is the remedy to consider. *Thlaspi bursa* is also characterized by urine that is gravelly and a desire to void too often in relation to the small amount that is presented. The person who needs *Triticum* has to void almost continuously and there may be loss of urine.

Each of these remedies offers a support that can be outstanding and even if your course of action is to take antibiotics, these remedies will not interfere. Homeopathy is a method of resolve that looks to the future. Its goal is to uproot illness, not cover it up.

What do Beethoven, Chopin, Paul McCartney, Dizzy Gillespie and Sir Yehudi Menuhin have in common? Why, fame via their brilliance in the field of music, of course. But that is not all. They are and were champions of homeopathic medicine and counted on it for the mainstay of their health. Homeopathy has a world renowned ability that appeals to the discerning and talented.
