

Hilary Johnson

My 10 year old son has had a rash on his bottom for over 5 years. We've been to GI doctors and dermatologists, and spent literally hundreds of dollars on prescription creams, as well as oral antibiotics and antifungals, to no avail. We might see mild improvements and then a flaring return. After 90 days of giving my son the remedies that Joette recommended, I can proudly say that his rash has cleared completely. He is so much more comfortable now, and we are looking forward to continuing work with Joette to further improve my son's health.
