Joann, NY, NY

I have RA and am wheel chair bound. Joette has helped me so much in the past and especially yesterday. In an effort to get off of the morphine medication I've been on for pain, I found myself feeling very much on edge and irritable. For weeks. It felt like I could just jump out of my skin and the anxiety was overwhelming. With Joette's help, I started Arsenicum album 30, every 30 minutes. This remedy really helped me calm down and I felt much better within minutes of taking it. The following day (today), I continue to feel well after weeks of these terrible sensations. Joette really is an angel here on earth.
