Homeopathy Is…

A scientifically based medicine that has had two centuries of trial, observation and practice in the hands of some of the greatest medical minds of the world. It has been used for millions including children, babies, adults, families as well as pets and livestock. The practice of homeopathy has been used throughout England, France, Italy, South America, India and until the 1940’s, the U.S., as well. It was upstaged by antibiotics and political infighting of the medical world just after WWII, but is now happily making a comeback in the form of at-home care by mothers and others who value safe, simple remedies at their fingertips.
