

Ann – Adirondacks, New York

Thank you so much for what you have done for me! Last night I went to bed with no fear or anxiety. Actually, it was a little odd, because some part of me wanted to be afraid or was expecting to be afraid, but the rest of me was quelling that and I could actually feel a real peace. I was overwhelmed. My husband had to leave at 2 AM which if it was a day before, I would have lost it, but I had that peace and assurance. I went to bed around 9PM and got up at 8 AM. I am an early riser, but I haven't had more than 5-6 hours of sleep in so long.

I did wake about 7 times, but easily fell back to restorative sleep. This is like a miracle to me! I am so grateful to you and homeopathy.

Aconitum has definitely made a change in me. I truly believe that peace was from God and it has been so long since I was able to lay hold of it. I am actually crying while I am writing this because I am so happy. Thank you again Joette.
