

# Clara Monroe — Spokane, Washington

As a midwife, I have seen this program as a gestational period... then I am heading on to labor, to birth...Softening and Opening! I have been working at this program while life has been falling apart at moments~ treating APH as a Devotional to get through.

Mastery feels like a Fellowship where all we have learned is owned... Becoming the Homeopath I had envisioned I would have become when I studied Homeopathy previously! TY Joette!!
