

Elizabeth Hurr, Columbia, South Carolina

It was so worth the money and the waiting period to meet with you. I use herbs and nutrient dense foods but I never really thought Homeopathy could get rid of my eczema. My eyes have been an issue for so long that when I first noticed they were healing, I didn't believe it could be true. But each day, I they have improved in a new way. It's like I re-appeared again. Someone pulled me out of the closet of ill health and put me back where I belong. I can open my eyes! Homeopathy healed me. Thank you Joette.
