Joette's homeopathic care is the sole reason my kidney stones are no longer a problem. The first bout landed me in the hospital doubled over in excruciating pain. They gave me very strong IV medication that knocked me out.

Once I woke up, I was told there was nothing they could do and I would have to strain and "pass" the stone. Painstakingly, I did what I was told and finally passed a small black speck that was smaller than a sesame seed. About a year later, I felt another one coming one.

This time I recognized the symptoms in advance, before I landed in the ER. My wife called Joette and she instituted a program combining nutrition with homeopathic remedies. Miraculously, the stone dissolved and I was symptom free in less than two days. That was about six years ago. Since then I have not had to face the agonizing pain or the grueling trip to the emergency room again and have been symptom free every since.
