

Sara – Hartford

I so appreciated your deeply respectful manner today, all the kind and validating things you said and your careful and out-of-the-box way of thinking. I was anxious to reach out for help, since prior efforts with other health professionals were so often not only unhelpful, but hurtful. Thank you for making this experience such a safe one. It was healing in and of itself. Entirely refreshing for me as a mom after everything my family has been through. Bless you!
