Back Surgery Cancelled !!

After suffering from sciatica intense pain due to a herniated lumbar disc and a L4 compression fracture for 5 long months both my orthopedic and neuro surgeons agreed that Surgery is necessary after exhausting all other options Medrol 6 pack, 2 epidurals, chiropractor, massage therapy and physical therapy .. nothing worked.

My dearest neighbor suggested to try homeopathy, she said “ what do you have to loose ? ” . She sent me Joette’s blog, I carefully followed Joette’s protocol : Taking Symphytum 200 together with Calc Phos and Hypercurum 200 twice a day.

After 3 weeks the pain started going away and after 4 weeks the pain was totally gone..

Next step was to cancel my surgery. Homeopathy works !!!
