Note: Joette is not a physician and the relationship between Joette and her clients is not of prescriber and patient, but rather of educator and client. It is fully the client's choice whether or not to take advantage of the information Joette presents. Homeopathy doesn't "treat" an illness; it addresses the entire person as a matter of wholeness that is an educational process, not a medical one. In order to be treated or diagnosed, Joette believes that the advice of a holistic physician is in order.
